

# Cellu M6® Integral [2] ⓘ Cellu M6® Endermolab [2] ⓘ

High performance

Upgradable

Versatile

#### LPG® GLOBAL PROTOCOL SYSTEM

- › Adjustable color touchscreen.
- › More than 60 built-in protocols: Health / Sport / Physical Therapy.

#### ERGODRIVE HEAD

- › New tissue massage +50%\* for more effective treatments.
  - › Independent motorized rollers (LPG patents) 3 Roll rotations for precision treatments: Roll In, Roll Out, Roll Up.
  - › Control screen and control buttons on the Ergodrive head and rotating base for easier use..
- \*Compared to Keymodule technology

#### TR50 HEAD

- › Specially designed for therapeutic use.
- › Independent motorized rollers (LPG patents).
- › 3 adjustable tissue massage settings (deep to superficial) for targeted precision.
- › Control screen and control buttons on the TR50 head.

#### ERGOLIFT HEAD INNOVATION

- › New LPG patent: integrated micro-motor (MPF: Motorized Pulsating Flaps) for two-dimensional Mécano-Stimulation™.
  - › Tissue stimulation increased by 270%\*.
  - › Tissue constantly monitored through the transparent chamber to control hyperemia.
  - › Easier access to narrow and sensitive areas (cheek bones, underarms).
- \*Compared to LPG non-motorized FLAP technology

- ① Different depths of massage possible with sequential aspiration.
- ② Targeted cellular stimulation thanks to variable Flap pulsation speeds

Patented Innovation

## Cellu M6® Integral [2] ⓘ Cellu M6® Endermolab [2] ⓘ

Advanced aesthetic and therapeutic technologies

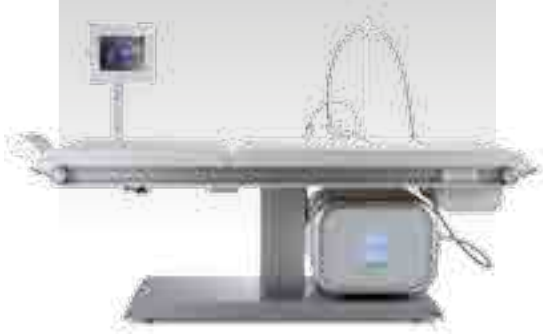

#### SCALABLE CONNECTIVITY

- › Plug & Care Technology for more versatility.
- › USB Port to upload periodic LPG updates (new protocols).

CHARACTERISTICS:

**Weight:** 308 lbs  
**Dimensions (L x w x h):** 73x28x59 inches  
**Frequency:** 2 – 16 Hz  
**Pressure:** 690 mbar  
**Output:** 26.15 yd<sup>3</sup>/h  
**Sound level:** 56 dBA  
**Electrical characteristics:**  
 100-240 V / 50-60 Hz / 625-650 W  
**Color touchscreen:** 10"4  
**Energy saving mode:** yes  
**Audio:** yes  
**USB Port:** yes

Cellu M6° Endermolab [2] ⓘ

CHARACTERISTICS:

**Weight:** 168 lbs  
**Dimensions (L x w x h):** 31x27x66 inches  
**Frequency:** 2 – 16 Hz  
**Pressure:** 690 mbar  
**Output:** 26.15yd<sup>3</sup>/h  
**Sound level:** 56 dBA  
**Electrical characteristics:**  
 100-240 V / 50-60 Hz / 625-650 W  
**Color touchscreen:** 10"4  
**Energy saving mode:** yes  
**Audio:** yes  
**USB Port:** yes

Cellu M6° Integral [2] ⓘ

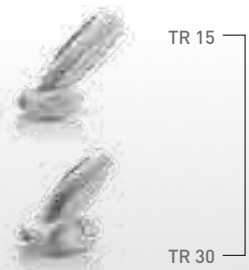

**Endermologie®** is an exclusive technology of **cellular stimulation** using **Mécano-Stimulation™**. Created in 1986 by LPG®, it **non-aggressively** treats **connective tissue** for **beauty** or **therapeutic purposes**. Its effectiveness has been backed by more than **110 scientific studies**.

**ERGOLIFT HEAD**

**FLAP 10:** narrow areas around eyes and lips, hands and fingers.

**FLAP 20:** large areas of thin and sensitive tissue.

**AUXILIARY HEADS**

To reach the most narrow and sensitive areas (lesions, scars, etc.).

**MICRO-HEADS AND MICRO-NOZZLES**

For micro-targeted use (fingers for example).

**ERGODRIVE HEAD**

Driving seat of the system equipped with KM80 for deep action on large areas.

**TR50**

For therapeutic use: fibrosis, edema, inflammation, pre- and post-liposuction, etc.
